

Department of Social Services: Staff Locations

We're placing our best staff in DSS offices across the counties we serve.

Keeping children safe and with their families is our priority. By placing or aligning staff to local DSS offices to be alongside our county partners, we can quickly support our members who are working with DSS. Our liaisons help us support in-home DSS services and anticipate families' needs during DSS investigations.

What these DSS liaisons are doing

Our DSS liaisons support our members involved in the child welfare system. This support may include:

- Answering questions or addressing needs or concerns from DSS
- Sharing new services, supports, and resources to DSS and families
- Connecting members and families with the right providers and services—at the right time
- Helping make sure that DSS and families can access prevention support
- Educating and training DSS teams

Essentially, these staff members are partnering with DSS teams to keep children healthy, safe, and supported.

Need more information?

For all general questions related to our Child Welfare Program, please email child-welfare@cardinalinnovations.org.
