

People with coronavirus disease 2019 (COVID-19) often have:

Fever

Cough

**Hard
time
breathing**

**Loss of
smell
and/or
taste**

This is a list of the most common signs.
Not all signs are listed. If your health problems are a **threat to your life**, call 911 right away.

If you or a family member has signs of coronavirus:

• **Get care**

- Before going to the doctor's office, urgent care or emergency room, call your doctor's office or 704-468-8888. They will tell you what to do to get care.

• **Follow instructions**

- If you need to get tested, we will schedule your test and let you know where to go.

• **Protect others and yourself**

- Wash your hands with soap and water for at least 20 seconds.
- Keep 6 feet away from others.
- Cover your nose and mouth with a mask or other type of cloth, like a bandana.

• **Stay inside**

- Rest and stay away from others for 14 days.
- If you live with others, stay in one room if you can.

We want you to be safe. We are here to help you get well soon.

If you have questions, call our Health Line. You can call 24 hours a day, 7 days a week.
